#### PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (I) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

**SUMMARY**

25X1D

A possible military installation covering 100 acres is located on the north edge of Zhmerinka. This installation is road served and has a main rail line along the west side. A probable firing range is located immediately south-southwest, and two POL tanks about 1.5 kilometers (km) south-southwest. A training area containing driver-training courses and firing ranges is

located about 2 km northeast.

[REDACTED]  
area to be unchanged and presently active.

(This area is listed in the Bombing Encyclopedia as Zhmerinka Army Barracks North; however, it is interpreted here as a possible military installation.)

**DESCRIPTION OF INSTALLATION**

**Railroad Service**

The main rail line from Vinnitsa to Zhmerinka runs along the west side of the installation and passes through the Zhmerinka railyards and continues on south.

**Road Service**

Two secondary roads enter the area, one from the east and one from the west. Both roads run from Vinnitsa on the north, through the city of Zhmerinka, then southward.

**Administrative and Troop Housing Area**

Area D contains four barracks, one adminis-

tration building, two 250- by 60-foot vehicle sheds, and 34 storage/support buildings.

**POL Storage Area**

Area G, about 1.5 km south-southwest of the installation, contains two 50-foot diameter POL tanks.

**Small Arms Firing Range**

Area L is a 400- by 80-meter small arms firing range located immediately south-southwest of the installation.
